When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.

If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.

A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices, do not require to be lured back by catchpenny reductions.

TELEGRAMS

TO STANDARD.

Paris, 13th—The French papers, without exception, rejoice at the advent of Mr. Gladstone to power, believing that France will be able to come to a better understanding with him than with Lord Salisbury.

The *Temps* says that Gladstone has foiled Lord Salisbury's plan, which was to close Parliament and remain in power till the end of the year. It adds that it is not yet time to remind Gladstone of his declarations in reference to Egypt and international European policy; but it hopes that it will not be necessary to remind him, and that he will keep his promises.

Belgrade, 13th The Regents have resolved to raise a loan to complete the railway system of Servia.

Constantinople, 13th—The journey of Stambuloff to this city, coincident with the recent change of Ambassadors of the Triple Alliance, is for the purpose of inducing the Sultan to recognize Prince Ferdinand of Bulgaria.

If Turkey recognizes him, Germany, Italy, Austria and perhaps England will do the same. This is considered as the result of the visit of the Prince two months ago to the European courts.

Naples, 13th.—Succi is going to fast for 23 days. Yesterday he rode on horseback for 18 hours. It is said that on the 20th. day of his fast he will walk to Vesuvius.

Paris, 13th.—The Marquis of Breteuil, Conservative Deputy, has resigned, on the political ground that it is impossible to obey the Pope and accept the Republic. He wishes to remain faithful to monarchical principles His letter to the President of the Chamber has caused an impression, especially amongst the Conservatives who were inclined to recognize the Republic.

Tangiers, 13th—The Sultan's army left the suburbs of the city to attack the Anghera rebels, but found the country completely deserted. It is not known whether the rebels have retired in order to surrender or to attack the Southern towns by surprise.

(To the "Prensa".)

Simla, 12th.—Another fight between Afghans and Russians has taken place at Negatash, Pamira. It is feared that these slight skirmishes will lead to ulterior complicaations, as they afford Russia a pretext for a campaign to which England cannot remain indifferent.

After the division in the Commons, Balfour moved the adjournment of the House till Thursday, which was agreed to.

Chamberlain has made a speech in which he declared that the present position of the Government is unprecedented in the history of England. He hoped Lord Rosebery would be the new Foreign Minister, as, if not, the country might awake some morning to learn that preparations for the evacuation of Egypt were going on, not alone because the Government had yielded to the pressure of foreign Powers, but that the Liberals had raised local questions dangerous for the country.

A Cabinet Council will be held to-day. Mr. Gladstone will go to Osborne to see the Queen to-morrow.

Dnblin, 12th—The *Freeman's Journal* says that the popular vote in the elections can never be destroyed. The new departure in politics must gradually develop, and no opposition need be feared from the House of Lords.

Madrid, 12th.—Terrible gales have done great damage all over Spain, and the torrents of rain have caused the rivers to overflow.

Paris, 12th.—The French have occupied Glorious Island, north of Madagascar, and have decided to annex Amsterdam and St. Paul islands in the Indian Ocean.

NATIONAL MORTGAGE BANK.

The report dated May 31st, 1892, shews the exact position of the bank, the issue of Cedulas down to March 31st, 1892, and the existing amount. Taking first the Cedulas in currency we find—

	Issued. $ currency.	Outstanding. $ currency.
B. Ayres	43,840,000	37,750,000
La Plata	3,050,000	2,530,000
Santa Fé	7,830,000	6,670,000
Entre Rios	4,990,000	4,790,000
Corrientes	2,870,000	2,800,000
Cordoba	6,530,000	5,520,000
Santiago	2,330,000	2,160,000
Tucuman	3,160,000	3,050,000
Salta	2,870,000	2,540,000
Jujuy	640,000	610,000
Rioja	530,000	520,000
Catamarca	670,000	660,000
San Luis	1,940,000	1,860,000
Mendoza	3,320,000	2,620,000
San Juan	2,610,000	2,580,000
Territories	5,020,000	3,480,000
Total	92,170,000	80,140,000

It appears that in 5 years down to Dec. 1891 the bank had issued 92 million currency Cedulas, of which 12 millions had been redeemed, say 13 per cent. In some of the provinces, however, the amounts redeemed were much less, being under 3 per cent in Corrientes, San Luis, San Juan, Rioja and Catamarca, from which we may infer some "moroseness" in payment in those provinces.

The total issues, in currency and gold, were :

	Issue $	Outstandings $
Currency A.....	20,000,000	15,350,000
" B....	15,000,000	13,460,000
" C....	15,000,000	13,240,000
" D....	20,000,000	18,570,000
" E....	20,000,000	19,520,000
Billetes c.l.....	2,170,000	2,170,000
Gold Cedulas...	20,000,000	19,250,000
Total	112,170,000	101,560,000

If gold Cedulas were counted at 300 the total issue to date would be equivalent to 152 millions, and the amount outstanding to 140 millions, shewing in 5 years an amortization of 12 millions or about 8 per cent of the issue.

The statement of gold Cedulas is as follows:—

	Issued $ gold	Outstanding $ gold
B. Ayres.....	9,260,000	8,990,000
La Plata.....	1,210,000	1,090,000
Santa Fé	1,220,000	1,130,000
Entre Rios.....	1,250,000	1,220,000
Cordoba..... ..	1,380'000	1,240,000
Tucuman	1,000,000	1,000,000
Mendoza.....	990,000	990,000
San Juan.....	800,000	770,000
Other provinces..	2,890,000	2,820,000
Total.....	20,000,000	19,250,000

The amortization has been very slight: in Tucuman and Mendoza nothing at all.

We have an interesting classification of the amounts lent on mortgage outstanding, and (reducing gold to currency at 300 in order to shew the total) we find as follows—

Class	Mortgages	Amount $ currency
Over 200,000.....	80	30,500,000
100,000 to 200,000..	197	31,500,000
50,000 to 100,000..	239	19,300,000
10,000 to 50,000..	1,326	34,600,000
Under 10,000.....	5,866	22,100,000
Total.....	7,708	138,000,000

It appears from the above that 277 individuals owe the bank the enormous sum of 62 millions currency or nearly $250,000 each. This shews that the object for which banks of this description are created was in great measure lost sight of, nearly one-half of the total issue having been absorbed by a small group of "capitalists"

The money seems to have been lent in the most reckless manner, and the present Board lays stress, in the report, on the fact that it is nowise responsible for the errors of the past. It would be amusing, if there were not also sad reflections connected with Cedulas, to read the statistics of auctions of fore-closed estates on which large sums were due to the bank.

In 12 months ending December 31st 1891 the Bank ordered the sale of 1,401 properties by auction, for sums due amounting to 24 millions currency, or 30 per cent of the total issue. The result was as follows—

	No.	Sum due, $
Suspended..	793	13,760,000
No bidders.	468	9,100,000
Sold	140	1,580,000
Total ..	1,401	24,440,000

More than half of the auctions ordered were suspended either because the owners paid something on account or for other reason. The properties actually brought to the hammer represented an assessed value of 22 millions currency, the amount due on them to the Bank being 10,700,000$, but the amount realized was only 2,030,000$ for 140 properties sold, there being no bidders for the rest.

The properties sold left a surplus of 450,000$; those unsold may not be worth one-fourth of the sum due on them: this is a matter that cannot be ascertained.

The auctions held for debts in gold Cedulas were as follows:—

	No.	Sum due $ gold
Sold.....	7	276,000
No bidders.....	98	2,240,000

The properties sold left a surplus of 90,000$ gold. Those for which there were no bidders represented nearly 90 per cent of the total.

The following is a comparative table of the amounts due by 'morose' mortgagors at various dates:—

	$ currency	$ gold
Dec. 1889	810,000	250,000
" 1890	3,260,000	1,070,000
" 1891	5,540,000	1,850,000

This is the inevitable road to ruin, for if we add together the currency and gold debtors in default we find it stands thus

	$ currency
Dec. 1889	1,560,000
" 1890	6,470,000
" 1891	11,090,000

The only remedy seems to be to sell all properties on which two year's interest is due, for whatever they may realize. Otherwise the National Mortgage Bank will ultimately see itself in a deplorable condition.

OUR LONDON LETTER.

(From our own Correspondent.)

THE ELECTIONS.

July, 15th

We look and laugh again every morning at the *Daily Graphic's* political ladder. It is conceived on good old principles. For the first time after a thirteen days' severe contest the Grand Old Man has out-topped his fat competitor and appears this morning six rungs to the good. The majority of six represents the absolute state of parties at this moment. Of course this small majority is on the basis of the number of members actually elected. On the other hand, viewing the subject as a question of net gains, Mr. Gladstones majority is as they say 'forty solid' which is explained by the *Daily News* in this way:—"The total number of members elected is 580. At the dissolution, the constituencies which these 580 members sit for were represented by 341 Ministerialist and 239 supporters of Mr. Gladstone—a majority against Mr. Gladstone of 102. Now, as shown in the gains and losses Mr. Gladstone has made a net gain of 54 seats, and these, being transferred from one side to the other, count as 108, and on the present returns (580 members) give Mr. Gladstone a majority of six.

But, looking to the whole of the representation of 670, the majority is really 40. The majority against Mr. Gladstone at the dissolution was 68. He has won 54 seats net; and 34 of these, being transferred, wipes out that majority of 68, and gives him 20 to the good, counting 40 on a division. This of course supposes, that the constituencies yet to be polled will return their old members, or members of the same political party. As 580 members have been elected, only 90 more have now to be returned to complete the House. In the old Parliament these 90 were divided in the proportion of 28 Ministerialists and 62 supporters of Mr. Gladstone. Now, if the 28 are added to 287 Ministerialists already returned, the total will be 315; and, similarly, if the 62 old supporters of Mr. Gladstone are added to the 293 already elected, the total will go up to 355, and give the majority of 40, thus:

Opposition.....	355
Ministerialists.....	315
Majority.....	40

Every new gain, however, which Mr. Gladstone may make will increase his majority by two, through the transference of the vote, and, in the same way, every loss he may suffer will decrease his majority by two."

That is as plain as a pikestoff as a speculation, but the state of the polls is as the *Daily Graphic* gives. There is no doubt about the majority more or less 40, as the *Daily News* shows, but sometimes the calculation is made not on the state of parties at the dissolution but at the previous elections, sometimes of 1885 sometimes of 1886; and occasionally the net gains are doubled, showing so many on a division without reference either to the period at which we are to take the state of parties or to the actual number of candidates elected or to be elected. Thus in the present case a net gain of 54, counting 108 on a division, is reduced to a majority of 40 by speculating, fairly enough, on the returns to come; a point which, I confess on writing to you on this subject very late last night, I had overlooked. The end of it is, that we can now safely calculate upon Mr. Gladstone coming in with a majority more or less inefficient, and the question arises 'what will he do with it?' Will he venture to introduce a Home Rule measure dependent as he must be upon the Irish Nationalist votes. The Irish can turn him out at any moment. A strong and compact body of English and Scotch tories and Liberal Unionists, —the supporters of the Scotch Established Kirk who have just reduced his majority in Midlothian—a band of half-hearted Liberals and employers of labour who dread the socialist tendencies of the democracy, interests of all kind landlords, drink-lords and cotton-lords are in wait to devour him as soon as the Irish give the blow. The responsibility of the Nationalists and of the Irish priesthood will be enormous in the coming parliament. The tact and generosity of the Irish race and party will be on their trial. Much more will the tact—not in very high repute—of the coming prime minister be on its trial. It is too early to attempt any analysis of the voting, but we see that at this date taking, all the votes cast, there is a Liberal majority of 108,343. The Liberal vote includes according to the *Daily News* 197,915 Nationalist votes. If we deduct these there is a Conservative majority of 88,672 votes. The figures are these.

Conservative votes	1,751,008
Liberal votes	1,860,251
Nationalists, etc.	
deducted 197,915.....	1,662,336
Conservative majority....	88,672

It is the same with the seats returned to date

Liberals.....	235	293
Irish Nationalists....	51	
Parnellites.....	7	
Conservatives.....	250	287
DissentientLiberals..	37	
	580	6 majority.

If we deduct the Irish seats, 58, from the Liberal seats and add to these the Dissentients, 37, the Conservatives elected are still in a majority of 36 seats over the Liberals; and matters will not be much changed in this respect by the final result. Great Britain as judged by the polls and existing electoral methods of voting is in the main Conservative.

As you will see by what I sent you last night, the only way of altering this is by an immediate reform of electoral procedure; and the question of the hour is: will Mr. Gladstone, with the consent of his Irish allies, attempt these reforms before he attacks Home Rule so as to have supports to fall back upon in case of opposition on the part of the House of Lords? Mr. Gladstone, as an old Parliamentary hand, may say:—"Little reforms would be of no use; reforms of electoral procedure would involve extension of the franchise, and that would bring upon my head the "woman's suffrage" business, which would be worse than Home Rule."

There is no knowing what the Old Man will not do to revenge himself on the Scotch Tories and ministers of the Kirk in Edinburgh. But, according to his latest post-card, dated Dalmeny 12th July, his greatest abhorrence are still the dissentient Liberals, and he continues harping on "removing out of the way the Irish controversy and to prosecute with vigour the work of reform in Great Britain, and to clear off arrears."

Of course, the idea is excellent, supposing he had a majority of one hundred. Under the circumstances, the Irish party themselves will surely see that the easiest and perhaps shortest road to Home Rule is perhaps to "clear off arrears" in great Britain first. It is, however, a terrible question, and our fellow-countrymen in Ireland must make allowances for the dulness and apathy in this country, in regard to Home Rule, which in this very day's paper I see alluded to by Mr. Chamberlain, one of the greatest Radicals, and possessing one of the most lucid intellects of our time, as "an unclean thing," whilst hundreds of English and Irish non-conformist Ministers, in reply to their Ulster brethren, state that having carefully considered this appeal they hereby express their conviction that Home Rule will neither destroy nor endanger religious liberty in Ireland.

10 p.m. The excitement at the clubs has much abated since the eventual triumph of the Liberal party has become clear. The "quidnuncs" are full of strange speculations as to what will occur when Parliament meets. Some say that Lord Salisbury will prepare a Queen's speech brimming with English social reforms, hoping to catch Radical votes if Mr. Gladstone threatens to postpone these reforms to Home Rule Others say Mr. Gladstone will find some means of busting Lord Salisbury without a vote on any contentious question, and will bring in his Home Rule Bill, whilst Mr. Chamberlain will lie in waiting with a drastic Land Bill to try conclusions, both with Mr. Gladstone and his former allies the Conservatives. "Veremos."

PROVINCIAL NEWS.

Our active little Concordia contemporary, the *Amigo del Pueblo*, in Thursday's issue, publishes an interview which one of its editors had with Mr. Joaquin Comas, who intends colonising his Aguapey estate, Alto Uruguay. Mr Comas's project is a vast one. At one time he had given up the idea of carrying it out, as the families he contracted did not put in an appearance. Luckily he fell in with a number of Brazilians, who accepted his terms, and agreed to settle on his lands. These settlers have done so very well so far that they have written to their friends and relatives to join them. Nothing succeeds like success, and Mr. Comas expects that the example of the first settlers will cause a strong current of immigration to his estate. He, therefore, feels confident the Aguapey estate will soon be a vast smiling colony. Land is so fertile in the Mesopotamia of the Plate that the wonder is twice the number of colonies have not been started. Settlers are going in on a large scale for vine-culture. The Yerua Colony, which covers 18 square leagues, is now one immense vineyard. This sudden spurt in vine-culture is due to the extraordinary success of the Concordia vineyards, whose owners have made fortunes, the Concordia grape being proclaimed the best in the country and the wine made therefrom and now extensively known as Conciliation Wine being superior in quality to the Mendoza and San Juan wines.

Advices from Santa Fé state that, at the request of the Italian Consul, the Criminal Judge has left to make inquiries into the recent police-outrages on Italian settlers in Rafaela Colony.

We note that an agent of the bankers who issued the municipal loan for paving the streets of Santa Fé is at present in that town endeavoring to collect the interest. We trust he may get it. In any case, he will have occasion to admire the beautifully-paved streets of Santa Fé.

MONTEVIDEO.

THE ENGLISH BANK LIQUIDATION.

A notice has been published in some of the papers here, of which the following is a translation.—

"The Liquidation Committee calls the attention of the creditors of this branch to the agreement recently celebrated in London, by which all the creditors of the Bank have the right to accept the same within four months from the date of approval by the Courts in London; the creditors of this branch may accept the said arrangement until the 19th of September next, the date on which the assigned term concludes, and after which they must adhere to the local liquidation. The said arrangement, with respect to the creditors, stipulates that they shall be paid 25% in 6 months, 25% in 15 months, and the remaining 50% within 10 years, the terms counting from March 31, 1892, and interest being paid at the rate of 4% during the first seven years, and 5% for a longer period; the interest until March 31, 1892, will be paid in cash at the rate of 4%. The said agreement will be at the disposal of those interested in the Bank's offices, where they may signify their adhesion to the same. Article 8 of the agreement says the "new Company shall be authorise to redeem the assets abroad by satisfying the creditors who may have preferential claims on the same."—"Montevideo, August 11, 1892."

The terms for the two cash payments of 25% each expire respectively on Sept. 30, 1892, and June 30, 1893. If we remember right, the London arrangement also included 4% interest to be paid in cash, on the credits, from the time of closing the bank, but this is not made clear in the above statement.

The above announcement will no doubt be welcomed by many of the creditors, but before accepting it, we expect they would like to know what alternative the Liquidators expect to be able to offer them in case of the moratorium being prolonged for six months. It would also be satisfactory to have it explained why the creditors here are not treated on a par with those in Argentina, who are being paid in full.

We learn that the Liquidators have delivered to the Committee of Finance of the Representatives, a document in favour of the six months' moratorium, signed by a number of creditors, though what proportion these bear to the whole has not transpired. There as been some talk of getting up a counter document, signed by those who are opposed to this course. The Committee will now report without further delay, and the matter will then be discussed in the Chambers.

According to a London financial journal, a further circular has been issued there by the directors of the New English Bank of the River Plate to those creditors of the old bank who have not replied to the previous circular, asking for their decision regarding the arrangement then suggested.

On Wednesday, the following petition was presented to the Chambers.

"The undersigned, captains, pilots and mariners who frequent the bay of Montevideo, understanding that the Chambers should shortly resolve on the vital question of the works to be executed to endow the Republic with a port for the capital, the moment has arrived for us to speak on the matter, and all the more because from reasons of our profession we are those who, after the country itself, are most vitally interested that the solution of the problem should respond to the requirements of the Nation, and the prescriptiono of science and navigation.

With respect to the scientific aspect, two high technical corporations of the State have already pronounced favourably, and with regard to navigation we can show with every evidence that the scheme approved by them responds in every respect to the navigator's art, and we therefore beg the H. Chambers to accord it their sanction.

In effect, the large curved break-water, and the straight one which springs from the extreme West of the city, will protect the Bay from the 'pampero', S. and S. East winds.

The Eastern entrance, full 850 metres and conveniently far from the rocks, is defended on one side by the coast and Punta Brava of Carretas, and on the other by the breakwater, so as to ensure an easy entrance, without danger, by day or night and in all weather, since even with the 'pampero' one can enter sailing with an angle of 87° or 21° more than the angle of a side-wind.

The ante-port, free from obstacles and with nearly all the space of the present bay, will allow the vessel to manœuvre freely and without any danger, whatever the initial velocity of entry, both simply when running for shelter from a storm and when entering for dock operations.

The Western mouth, protected by the "Bank of Piedras Blancas" may be advantageously used for river navigation, and for the exit of all vessels in S. East wind, without requiring a tug in any case.

This mouth is also indispensable for the entrance of the principal and secondary currents, apt for the necessary renewal of water and for deepening the bottom, especially in 'pampero' weather, because the mixed interior breakwater will guide and strengthen derived and occasional currents, whilst the principal current which passes to the North and South of the large breakwater will keep the bottom necessary at the sides of the same.

Considering then that the works proposed by the engineer Dr. William Rigoni respond to all the prescriptions of the navigator's art, we join our voice to that of the techical corporations of the State, begging the H. Chambers to deign to sanction the said scheme, defining in this patriotic mode, scientifically and to the satisfaction of navigators, the most vital matter of the Port of Montevideo."

This petition is very numerously signed by many pilots of standing in the River Plate, captains and masters of river steamers, coasting vessels, and foreign steamers and sailing vessels in port, tug and launch owners, etc.—*Montevideo Times.*

A notice has been published in some of the papers here, of which the following is a translation.—

"The Liquidation Committee calls the attention of the creditors of this branch to the agreement recently celebrated in London, by which all the creditors of the Bank have the right to accept the same within four months from the date of approval by the Courts in London; the creditors of this branch may accept the said arrangement until the 19th of September next, the date on which the assigned term concludes, and after which they must adhere to the local liquidation. The said arrangement, with respect to the creditors, stipulates that they shall be paid 25% in 6 months, 25% in 15 months, and the remaining 50% within 10 years, the terms counting from March 31, 1892, and interest being paid at the rate of 4% during the first seven years, and 5% for a longer period; the interest until March 31, 1892, will be paid in cash at the rate of 4%. The said agreement will be at the disposal of those interested in the Bank's offices, where they may signify their adhesion to the same. Article 8 of the agreement says the "new Company shall be authorise to redeem the assets abroad by satisfying the creditors who may have preferential claims on the same."—"Montevideo, August 11, 1892."

The terms for the two cash payments of 25% each expire respectively on Sept. 30, 1892, and June 30, 1893. If we remember right, the London arrangement also included 4% interest to be paid in cash, on the credits, from the time of closing the bank, but this is not made clear in the above statement.

The above announcement will no doubt be welcomed by many of the creditors, but before accepting it, we expect they would like to know what alternative the Liquidators expect to be able to offer them in case of the moratorium being prolonged for six months. It would also be satisfactory to have it explained why the creditors here are not treated on a par with those in Argentina, who are being paid in full.

THE OUTGO OF GOLD

The exports of gold last week were larger than anybody expected. When about $2,000,000 in gold was sent out on Tuesday, it was not generally supposed that other shipments to a greater amount would occur during the same week. But the amount actually sent was more than $7,000,000, and nearly the whole of it is said to have gone out on orders from Berlin There is no excitement or alarm in the street on account of this movement, because the supply of money at present available is far in excess of the immediate demand. But there is nevertheless a feeling that the movement is somewhat abnormal and peculiar in character, and that it may indicate the operation of forces which if contiuued will prove mischievous.

One cause of the outgo undoubtedly is that the management of many corporations in this country has been unsatisfactory. From time to time facts come out showing how largely foreign investors have lost through their confidence in certain enterprises. Thus recent reports respecting the Oregon Transcontinental and the North American companies, and the state of investors therein, have been quite enough to excuse some disposition to sell on the part of foreigners, specially if it is remembered that enormous foreign capital has been sunk in connection with these companies. But there are a good many others which have proved not more profitable. One who looks over the lis will be impressed with the fact that concerns in which foreigners have invested most largely are not as a rule those which have proved most profitable to American investors.

It is undeniable that another and very important cause of distrust and dissatisfaction, among foreign investors in this country, is the agitation for free coinage of silver. In general the position of the United States Government with respect to silver is not regarded with satisfaction or confidence abroad. It has been brought sharply to the attention of capitalists in all European countries within a short time by the arrangement for an international conference. These have led business men to look into the position of the United States Treasury, and to realize that its continued purchases of silver bullion and issues of paper practically redeemable in gold are constantly weakening the Government and the currency. Every day the position of this country becomes more questionable in the eyes of conservative Europeans, and in that light it is not strange if from time to time many of them think it wise to realize on their American securities.— *N. Y. Com. Bulletin.*

ARGENTINE LAND COMPANIES.

12th August.

Mr. Editor,—

Upon referring to my letter to you of the 8th inst., published in your issue of the 10th, I find that the figures I supplied in respect to the Argentine Land Investment Compsny and the Argentine Southern Land Company have not been correctly transcribed. These should stand as follows :—

	Share.	Paid up.	Quoted 9th July as p. *S. A. Journal*
Argentine Land Investment Co.	£4	10/	0 to 1
Arg. Southern Land Co.....	£10	£8	3 to 4

Kindly insert this letter in your next issue, as, owing to the printer's errors alluded to, the shares of these Companies appear at a greater discount than that at which they in reality are.

Yours obediently,
Shareholder.

STREETS OF BARRACAS.

Mr. Editor.

Kindly allow me through the columns of your valuable paper to call the attention of the Lord Mayor to the disgraceful state of the streets in Barracas al Norte, particularly Avenida Montes de Oca and Pedro Mendoza in the neighbourhood of Tres Esquinas. From Tres Esquinas to Santa Rosalia in Montes de Oca has been for the last 18 months nothing less than a cesspool, and more especially now that the Cloacas Domicialiarias are being put down.

The stench is unbearable, and unless something is done to improve the streets ere the spring comes upon us sickness must needs be the result.

If the Lord Mayor would see fit to send an oficial to see these streets he would, I am sure, feel convinced of the truth of my statements.

WANT LONG FELT.

Rosario, Aug. 11th.

Mr. Editor.

You would confer a considerable favor on your many subscribers by throwing into the waste-paper basket such contributions as the one signed 'Paradox' in your No. 8980. It is a solid column of goody goody nonsense, about nice people, that don't ride in trams or railway carriages because people spit and paper money is dirty. These nice 'funcido' people had better stay in their own country, where there is plenty of nice bread and butter, nice milk, nice people, nice houses, with nice carpets, nice servants, pretty dogs and so forth.

E. B.

EDITOR'S TABLE.

We intend to have our share in the long-felt want business for the future, and to this end will publish the STANDARD on Tuesday next, and whenever two holidays follow each other: but we intend to stick to our Sunday rest. Six papers per week is our limit; long, short, or any other kind of want to the contrary notwithstanding.

No mail for Europe to-day. Colonia at 8 a.m. and Corumba, Uruguay and Asuncion at 9, are the only items on the mail "menu" to-day.

The National Senate sat for half an hour yesterday. They held a secret conclave and approved the appointments of Dr. Breard as Juez Letrado in Formosa, Dr. Diaz to the Civil Court of Appeal, and Dr. Luis Navarro as Juez de Instruccion.

Mephistopheles to-night at the National Theatre, and Otello to-morrow. Lucia on Tuesday.

No meet for the Lomas Harriers to-morrow, although it is not a fast day.

Oh! What next? An evening colleague says that President-elect, Dr. Peña, intends to raise the National Bank from its ruins and convert it into a State Bank, on the model of the Bank of England!! The latter institution is as much a State Bank as the "Banco Ingles" in the middle of the river. We are tired correcting this error on the part of our colleagues. The Bank of England is a private bank, and the Government does its banking business with it, like any other persons or person. "Nada mas."

The following telegrams are detained at the River Plate Telegraph Office San Martin 281. From London to Rocha from New York to Alagon.

In our statement of trade returns published yesterday the imports and exports were in gold: the revenue should have been not in gold but in currency.

In the once enchanted but now banquet-hall-deserted city of La Plata on Friday the citizens were trembling in their patched boots all day long, owing to the revolutionary rumours in the Spring-like air. One of these rumours was that Congress Hall was surrounded by troops and that a revolution would break out before dinner time. Here also there were lots of idiots who persuaded themselves and tried to persuade others that "something" was about to happen.

'The trouble with Spongeley is he never pays anything" said Grabbles. 'Oh, doesn't he, though! Ask him to pay you a visit, and see!" retorted Hicks.

The City Paternals had their pates together on Friday about the affairs of the capital of this fine but rather hard-up republic. They started with some profound remarks as to the necessity of "rectifyng" Calle Paraguay, as it that extremely unfashionable street were a barrel of bad spirits. Domiciliary visits for health purposes next engrossed their attention. Next they agreed to interpellate, alias badger, the Lord Mayor at Monday's sitting: they also sent him a warning to hurry up with his accounts Then there was another exchange of more or less brilliant ideas about the vexed question of free boxes in the theatres, and the Lord Mayor just popped into the Council Hall in time to appeal for an adjournment, which was granted: and then the Wise Men of Buenos Ayres were pleased to turn out the public and lock themselves up for a secret sitting.

The intended Football match at Quilmes to day has been postponed.

B. J. I. offers in our advertizing columns a chance of making a Vanderbilt fortune, in addition to going down to posterity as a benefactor of humanity by putting an end to the standing war between the public and the tramway Companies on the subject of ticket inspection.

We must refer "Horse Marine" to the Argentine War Office for answers to all the questions he as put to us.

In answer to a complaint we received yesterday as to receipt stamps not being sold at the counters of private banks, we beg to say that the porters in all the banks are authorized to sell such stamps at current prices.

A sporting subscriber asks us why we said not even a passing word about Saint Grouse's Day. We couldn't. Our feelings were too full for utterance; but we went to see Otello at the National Theatre, to keep our recollections of a moor fresh.

Mr. Hugh Mallett, H. M. popular Consul in Rosario, arrived in town yesterday, and we feel pleasure in saluting him.

Marker! Score one for the Pacific Steam Navigation Company. The splendid liner Potosi has broken the record. She arrived at Montevideo yesterday morning at 8.30 having left Coronel the evening of the 4th. Bravo!

There will be a practice match of the B. A. A. F. C. to-day, in which some of the Montevideo team will take part, at Flores.

"It was an English ecclesiastic, according to a writer in an American magazine, who used to tell, after his return from a visit to the United States, how on one occasion he had met in the streets of New York a boy, aged six or seven years, alone and sobbing bitterly. To the reverend interlocutor's inquiry as to what was the matter, the urchin replied, "I'm lost; ma's lost me; I told her she'd lose me if she didn't take care."

The compassion for the widows and orphans caused by the Rosales disaster (about which, by the way, Dame Rumour's tougue is wagging in a terrible way) is as deep as ever. The Centro Naval has arranged a benefit for them on Tuesday night next at the Comedia Theatre. The programme is superb, and ought to attract an overflowing house.

Another entertainment for the same laudable purpose will be given to-morrow evening in South Barracas, in the Rivadavia Theatre. The programme includes an excellent selection of vocal and instrumental music, and that very amusing comedy "Don Sabino."

Mining men should make it a point to go to Burgos's in Calle Florida and inspect the splendid collection of minerals Mr. Valenzuela has there. He intended to send them to the greatest Show since the Flood, at Chicago, but has changed his mind.

There was a large consumption of the "glorious vintage of Champagne" in the President-elec'ts house on Friday evening. Crowds of visitors were there, amongst them General Roca, who cordially drank Dr. Peña's health, making a short speech.

The Vice-President elect, Dr. Uriburu, will leave Chile by steamer on the 27th inst., and will be here on the 12th prox.

Said the visitor when he entered the sanctum: "I have brought you a squib." "What for?" asked the editor. "Do you take this for a fire-works shop?" "No," responded the visitor;" "a squib, a little piece for your paper, something I dashed off in an idle moment just to fill up the paper!" And the editor dismissed him as one who had come with a gift of great price.

We thank Captain Stapleton for sending us a batch of London, Paris and Cape papers.

Here is something interesting about the Zoological Gardens in New York, one of the best in the world:—"Young Fatty, the youthful hippopotamus, has recently been separated from his mother, and made a terrible noise about it. The mother showed her grief by chasing her husband, Caliph, into the water, and making him stay there for two days. Caliph is nearly twice as large as she is, but hers is the master spirit. Tip is the elephant who has killed eight men. His temper is frightful, and he has several times tried to kill his present keeper, Snyder, whose fox-terrier, Gyp, is the only being with any influence over Tip when he is in one of his rages. She worries his heels, and barks incessantly, always managing to keep out of the way of his trunk. The baby mouffion is now five weeks old It is a small and pretty animal, partaking the characteristics of the sheep, the antelope and the goat. The mouffion is said by naturalists to be able to see the wind and to possess a strong desire to get out of its way."

Offenbach's Belle Helene at the San Martin is causing a perfect 'furore,' and from start to finish the audience are in roars of laughter Never was there such a riot of anachronisms. It is simply side splitting. Several novel features are, we understand, to be introduced, such as Jupiter reading the morning paper and, horrified at the price of gold, summoning Mercury, who immediately appears in that beautiful posture so graphically described as p

ON 'CHANGE.

Saturday, Aug. 13th 1892.
The market to-day showed all the impress of the close of a prosperous, favorable week. The peaceable and constitutional election of our new President, Dr. Saenz Peña, is beyond question its most prominent feature; general confidence has jumped up 20 points higher since yesterday's vote in Congress. We have, of course, yet to travel a long road before confidence is thoroughly restored; but every man on the Bolsa admits we are steadily marching on, and by the end of the year, if everything falls out well, we shall strike another hundred points off the present high gold premium. The feeling of the market there is no mistaking, we see it in everything, everyone wants to secure before the great tumble in gold comes. Our produce deposits are being literally cleaned out. Hides, sheepskins, wool, horsehair, tallow, cereals, all are pushed forward to avail of the present gold rates. That the great break in gold must come seems an admitted point; the only question is when? The tide that has set in against the gold market is each day rising; some few infatuates stand with a pitchfork at where once the old mole was, vainly trying to stem the current. Do our readers remember some years ago when the same scene occurred, and Mr. Todd and Mr. H. Hart, at our inspiration, went down to the old mole to see our friend with the pitchfork. Fusechental Bonds were sold on that memorable day at 29. Mr. Grigg and Mr. Pedro Gandulfo bought them to amortize them a few months later at par; these are solemn facts, and there is such a remarkable resemblance between the market then and now that we think we do good service by pointing to it. Around the ring there are many men who can well remember the state of this market when the Government was in Belgrano and the troops bivouacked on the Flores road. Men who had Krupp guns at their garden gates were buying up National Bonds by telegram in London and Treasury bills by hypothecation here; their confidence in the country not only never flinched but grew with the very political troubles that reduced Argentine National stocks to rubbish prices. Nor is it to political influence alone that we are to attribute the improved feeling of the week; from all parts of the country we have the most favorable and promising agricultural advices. New colonies, new lands ploughed up; there is a busy hum of industry everywhere; even the weather favors the country. The farmers could not possibly have finer weather for their crops. Hundreds of leagues of fresh land, never before touched by the plough, go this year under cultivation. As we stood at the Bolsa tables this afternoon watching the payments for maize going on we thought of the days gone bye when the STANDARD demanded of President Roca an estancia of 4 square leagues prize for Mr. Christophersen for being the first on record to ship 13,000 bags of maize in his steamers! How things have changed since then, and yet there are still left some who doubt this country's future!!
The gold market opened very weak this morning, but the requirements of the weekly settlement were considerably larger than expected and, in the midst of a slight bullish rally, the ounce closed at last night's closing rates. The current of the speculation, however, is very bearish and the majority of operators are now speculating for a fall. One and all agree that political difficulties may now be shelved for three or four years, although there are still a few pessimists who maintain that the Radical Party will spare no effort to oppose the new Government that will take over the reins of power next October. Nothing could be more satisfactory than the speeches exchanged yesterday between the President-elect and the Warwick of the country, General Roca. Both speeches breathed the greatest cordiality, and there is no reason to suppose that the elements of one will clash with those of the other. The political horizon is clear and the energy of the Government can be devoted to finances.
Seventeen thousand ounces changed hands for cash at the first ring; the price opened at 52$ and closed at 52.30$, say 221.35% premium. Seven hundred sovereigns were sold at 16.25$ and 16.30$, say 223.40% premium. Affairs opened very weak at first, but gold soon sprang into demand and at one moment ounces went to 52,40$; as the requirements of the liquidation subsided, the market grew weak and fell. Sovereigns are always quoted at a rather high premium above ounces, which leads one to suppose that gold shipments will continue this month. With regard to gold shipments the following figures of shipment of late of over 20,000£ at a time will be read with interest:—

Date	Steamer	Consignment £
May	Various	85,000
5th June	Portugal	50,000
8th "	Phoenix	105,000
22nd "	Tagus	32,000
6th July	Clyde	60,000
12th "	Maskelyne	30,000
20th "	Tamar	20,000
22nd "	Equateur	22,000
29th "	Dryden	40,000
3rd Aug.	Magdalena	23,000
5th "	Bresil	40,000
3rd "	Patagonia	60,000
Total		£567,000

Amounts under 20,000£ by other steamers are omitted: we may therefore, safely calculate 750,000£ since the beginning of May. The bulk of this gold was remitted to Rio Janeiro, and it looks as if more gold is bound to go forward, in view of the weakness of exchange.
Patriotic Bonds were active and in demand: about two hundred thousand were sold; the price for cash rose to 72.50, but closed at 72.40 firm; the rate for the end of September was quoted at 73.20. Internal bonds were also very firm at 67.80 for cash and nominal at 67.80 for the end of the month.
Argentine Gas Shares rose to 50 and Spanish Bank Shares were steady at 105. Catalinas rose to 10.70 but closed at 10½. National Cedulas D were done at 85. La Plata Cedulas were weak and dull.
Exchange shows no improvement: rates are quite nominal. Discounts are very easy and rates are flattening.
The following is a summary of the business effected in stocks and shares at the first ring to-day:—

We hear on good authority that the Argentine Government will soon send a gun-boat to the Antartic territories to assert Argentine jurisdiction in the South Shetland Islands and in Graham's land. About two years ago, we think, a German expedition visited these Antartic lands and christened one of the straits in Graham's land Bismarck's Passage. We dare say that Argentines will raise no objection to the name of the famous German statesman, who takes a great interest in Argentina and professes a great regard for a leading Argentine statesman, General Roca. Talking of these territories reminds us of Messrs. Aug. Linck and Co.'s proposal to the Government to turn to account these distant territories and establish regular steam communication with Buenos Ayres. Whale and seal fishers of all nationalities have been taking advantage of the indifference of the Argentine Government and have been working in those parts for many generations. Messrs. Linck propose to put an end to this kind of piracy and to hand to the Argentine Government a percentage of the profits of the fisheries. About seventy years ago the fisheries in the Antartic regions were in their palmiest days: whales and seals were decimated and gradually the fisheries fell off, owing to lack of profit; the industry has been much neglected since, yet it can prove a source of some revenue to the enterprising concessionaires and to the Government. The territories or lands in question embrace the Shetland Islands, the Orcades, Graham's Land, and Sandwich; these, to judge by their geographical situation, belong to the Argentine Republic, although vessels of all nations look on them as lands without any jurisdiction. We may add that they are of strategic importance to Great Britain, Germany, or the United States, and the Argentine Government should bear the fact in mind and assert its sovereignty by means of a war vessel or by some concession such as presented by Messrs Linck. We published the conditions of this concession not long ago and think that the Argentine Government or Congress should grant same, if for no other purpose than that of establishing steam communication between Buenos Ayres and those distant parts. The best authority in these matters would be Engineer Popper, who, we hope, will throw some light on the subject.

Immediately after the first ring, Mr. Farina, the auctioneering King, knocked down at auction the following stocks—

1400 shares of the Banco Hipotecario de la Capital at 25, 29, 30 32, 34, 36, 42 41, 46, 45, 43, 44.

50 Cooperativa Telefonica at 16$.

10 do fully paid up at 40$.

1 share of 1000$ of the Colonia Juarez Celman for 310$.

Mr. Arthur Eborall will hold on the 2nd inst. a large auction of corralon articles and general goods in the town of Azul.

Cheques of the Provincial Bank were done to-day at 38¼% discount; those of the National Bank at 20% discount. Bonos of the La Plata Mortgage Bank were quoted at 18¾% of their face value.

The members of the Sala de Comercio of the Plaza Constitucion met to day and appointed the following board of management:—President: José M. Trelles: vice Eduardo P. Greffier, Luciano Moleres, pro; Carlos Rivera, secretary, Jorge M Mendez, pro: Luis A. Repetto. Directors: Emilio P. Martinez de Hoz, Maximo Hopff, Manuel Durañona, José Maria Mendez, Angel M Trelles, Guillermo Dierks, Martin Ribet, Pedro Lanusse.

The Minister of Finance of the Province of Buenos Ayres is at present engaged in drawing up a complicated bill whereby all provincial debts will be consolidated and the Government enabled to make both ends meet. We sincerely hope that the Minister will be successful, but that he will reach the desideratum foreshadowed in the embryonic bill. We suppose all details will be published next week.

On the 26th inst. the Provincial Bank of Cordoba will burn with all the formalities of law, the following amounts:
150,000 Bonos Agricolas.
300,000 do. local issue.
244,146 public funds.

644,146

Some very fine Lincoln wethers were sold to-day at the Tablada at the rate of 11$ per head. Some fat animals of less superior quality fetched 8$ each.

Telegrams from Montevideo this evening announce a sudden advance in Cedulas A to 23.

The gold market ruled dull, but firm, at the second ring: five thousand ounces were sold for Tuesday (Monday is a feast-day:) the price opened at 52.30$, fell to 52.20, and closed at 52.40, say 221.96% premium. About eight hundred sovereigns were sold at 16.20$ to 16.25, say 222.41% premium. The market closed in advance of the morning rates, but decidedly heavy, Patriotic Bonds were firm at 72.30 for Tuesday and 73 for end of September. Internal bonds closed at 68 for the 16th and 68.20 for 31st inst; closing very stiff. La Plata Cedulas were slightly firmer.

The following is a summary of the business effected in stocks and shares at the second ring to-day:—

The Commercial Judge yesterday declared the firm of Juan E. Clark y Cia, railway contractors, bankrupt. These gentlemen issued a circular yesterday to their creditors calling an immediate meeting. It appears that the unfavorable issue of several heavy lawsuits with Messrs. Sanchez, Hume Bros., Mallmann & Co. etc, hastened the collapse of the firm, whose liabilities amount to several millions. The assets of the firm are several lines, including two in Corrientes, one in Venezuela, and part of the Transandine Railway, railway plant and real estate. It appears that if the creditors consent the railways may be disposed of, as there is a party interested in their purchase. The collapse of the firm appears to have been foreseen in London. It is said that the firm was declared bankrupt at the instance of Messrs. Murrietta & Co's agent. Mr. Eladio Macias has been appointed 'sindico'.

The Inspector of the Buenos Ayres Port Works has sent in his report on the work done during the month of July. From this document we glean that 400 square metres of macadam and 200 cubic metres of ballast were laid down near the spot where live animals are shipped.

The dredging in the South Channel amounted to 81,794 cubic metres, say twice as much as the average of the constructing company. The certificates for the month amount to 179,372$ gold for work done, 7.174$ for interest and 13,452$ gold as commission to the concessionaires, say a total of 199,990.82$ gold.

The Minister of Finance granted today the following exchange of shares of the National Bank for bonds of the so-called Internal Loan of 1892; these bonds are known as Internal Bonds, against Patriotic Bonds which were issued in 1891. The exchange at the rate of 2 shares for every bond was granted to—

The Board of the Department of Engineers applied to the Government today for $45,000 to repair roads and bridges in the Republic.

The board of Public Works have sent a bill to the Minister of Finance to the amount of 37,000$m/n, merely to keep in good order several National public buildings.

The Department of Engineers sent today to the Contaduria General the accounts of the City Improvement Works whilst they were in Charge of the department.

The Public Works' Board informed the Minister to-day that steps had been taken to meet the wishes of the Governor of La Rioja, who requested that Mr. A. Belmonte be sent to inspect the works of the artesian well at Paiquin.

The Engineering Department has received Mr. J. Tornquist's plans and estimates for the construction of a bridge over the Rio Grande in the province of Jujuy. Messrs. Tornquist also request payment of 38,000$ gold in Treasury Bills, expiring 31st. December, according to the terms of the contract for the erection of the bridge.

This evening it was stated in a knot of very influential capitalists, who know the ins and outs of the political imbroglio, that the Cabinet of the new President would comprise Messrs Manuel Quintana, Benjamin Victorica and Juan Jose Romero. The three names are good and will be popular in the market. It is, however, rather premature to decide on the composition of the Cabinet. It is whispered that the President-elect is in favor of a reform of the constitution.

Yesterday we were shown a letter from Rio Janeiro saying that the Italians were as thick as flies, especially in San Paulo, and everyone of them would come to Buenos Ayres if some one would pay their passages.

We have pleasure in saluting a new Anglo-Argentine auctioneering firm, Messrs. Cutiellos and Armstrong, whose advertisement appears in another column. Mr. Cutiellos is a well and favorably known consignatario and estanciero, and Mr. Armstrong, many years resident in Buenos Ayres, is a nephew of the late Dr. Tomas Armstrong of this city. We wish the new firm every success.

The following sales of real state are reported. Messrs. Bravo, Barros and Co. sold

House No. 1439 Calle Rivadavia, 14.12 yards by 68.60, buyer Mr. Agustin Necol, for $72,500.

House Calle No. 923 Montevideo, 8⅔ by 17, to Esteban Vinelli for $7,800.

House No. 1060 Calle Santa-Fe, 8⅔ by 70, to Mr. Manuel Abreu for $27,100.

Land 1072 Calle Santa-Fe, 15 by 60, to Mr. Pedro N. Castro for $53,500.

6 lots of land all in the corner of Acevedo and Mansilla at 2.20 to 3.90 square yard. Buyers Messrs. A. Canciani, J. Estañero, J. Morchio, M. Lopez and C. Ystone.

4 lots of land in calle Piedad and Gran Chaco, at $1.60 to 2 square yard. Buyers Jose Larco, A. Muller and Cosme Sanchez.

3 lots of land in Calle Cuyo between Bustamante and Gallo, at $7.50 square yard; Buyers Messrs. Juan Bollo and Santiago Casorette.

The sum total of these sales amounts to 186,941.16⅔.

Messrs. Luis Godoy and Co., sold yesterday an old house Calle Buen Orden 1332, to Mr. Juan F. Ferreiro, for $11,600.

Sr. D. Francisco Uriburu, president of the Bolsa, was welcomed on Change, on his arrival from Rosario de la Frontera, also Coronel Arrue; and both look much improved by their trip. The sulphur springs seem to agree with Bolsa people, but the charges at the hotel are enormous.

A rather interesting case has just come before Judge Tedin. The procurador fiscal it appears obtained an embargo on all the property of Don Jose Rocamora whose bill of exchange on London for £20,000 the Minister of Hacienda bought, paid for, and remitted to the Banque de Paris et des Pays Bas, and which was protested for non-acceptance. Subsequently the Banco Hipotecario de la Capital applied to the Judge to raise the embargo on a house in Calle Alsina 331 and 335 and at present rented by the National Congress and on which property the Bank had advanced money. The judge however refused the application, and the extraordinary part of the business is how the National Government came to take a bill for so large an amount for remittance to Europe. We certainly never heard before of such a drawer of exchange in this market; but as the Fiscal has got an embargo it will be a nice question for the courts how far that embargo can affect property previously mortgaged. We believe the mortgage must first be paid.

Mr. Bullrich has got hold of another grand city property to sell by auction next month. A house which although not of the same historic importance as the Club Progreso, is a property, probably one of the best known in town to the generation of politicians who are fast passing away. In this house, if we are not greatly mistaken, the treaty with the Belgrano Government was signed and sealed by the late Don Felix Frias. All the Frias family have occupied it since it was built, and the offices on the street have been occupied by Messrs. Duggan Hermanos since their hegira from the Once. The house is very massive and reminds one of the old palatial houses in via Garibaldi, Genoa, only lacking the grand marbie staircase and pillared entrances of the Genoese mansions. Bullrich however at the auction will have sufficient inspiration to surround the property with historic recollections, which may add a few dollars to the valuation of the finca. Owing to the change in tastes and in fashions the locality is not now considered the best for a city residence, and people who can afford to live in such a house prefer the Avenida Alvear and its environs; neither is the present the most opportune time for selling such properties, but we suppose that the Judge has more to say in these matters than the auctioneer, and if the property passes out of the Frias family it will be probably turned into a Hotel.

The Credito Publico office announces that is has destroyed 2,575,000 bonds of the Empresito Interno which it received from the Banco Nacional as extra amortization in part payment of its debt at the rate of 75% of the nominal value of the bonds. If to this large amount we add the bonds taken off the market for subscription to the Banco de la Nacion, and also the Bonds amortized each month by that Bank and each quarter by the Government, we find that very soon there will be very few internal bonds to be found in the market.

The trade of the port of La Plata, judged by its Custom House returns shows very rapid growth, and it is quite evident sow that the country will support both ports, although a few years ago it was feared that the port of La Plata would, owing to its increased facilities, ruin the port of Buenos Ayres, which was a very great mistake. During the second quarter of the present year the La Plata custom house shows that 36,572 tons of produce were shipped, of which 15,800 tons were maize and 15,745 wheat, which leaves a very small proportion for other produce. The import duties collected during the last quarter amount to 65,953 dollars and the total tor the half year to 189,900 dollars.

The subscription raised in Montevideo for the family of our old friend Capt. Goldie amounts to the very respectable sum of 1,989 dollars suld.

The trade between the River Plate and Rio is steadily increasing, and we note the formation of a new River Plate house in Rio Janeyro, Rua Rosario, No. 36, under the firm of Barros, Teixeira and Company. The managing partner in Rio, Don Antonio de Barros, the manager in B. Ayres Da R Perez, offices 383 Calle Piedad. The chief business of the firm will be supplying the Rio market with live cattle and supplying B. Ayres with coffee, tobacco, and farina.

The firm has already exported from here 1000 animals and has 6000 more bought for shipment, and the firm here advance 50% on all consignments; we suppose it will do a large business.

There is a very remarkable case going on before the Courts here respecting some bills of exchange and pagares that were sent to Dr. Plaza in London. and their payment stopped through the means of a third party having obtained the Code words, and sending a telegram to Dr. Plaza of which the owners of the bills knew nothing. It is probable that in a few days further particulars about the business will transpire.

Steam tramways seem to be making headway in this province. On Tuesday last the first steam tramway arrived at the little country town of Giles, which as a matter of course, caused great rejoicing in that thriving rural district. The farmers, shopkeepers and estancieros all turned out to welcome the little locomotives, and on the spur of the moment, they sent a collective enthusiastic telegram to Governor Costa in La Plata, which relieved the monotony of Goverument-house affairs out there. We congratulate the people of Giles on this real mark of rural progress; a steam tramway costs little to construct and the local traffic of the place will be ample to support it.

The well-known Montevidean saladero firm of A. Castellanos and Co. is dissolved and the business now is being liquidated.

Mr. William White, resident director of the Buenos Ayres Great Southern Railway, is passenger on board the Royal Mail steamer Thames and may be expected shortly. The business which took him to England about the construction of the new Central Station by the different railway companies, owing to the crisis and the state of the market, could not be arranged, as the railway companies at the moment are unable to raise the funds. Mr. White got a warm reception in London from all his old River Plate friends, who were delighted to see him, and they gave him banquets and took him round to see everything.

EXTRACT OF TOBACCO.
According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.
Directions for use
One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.
